RE: CERCLA § 106 Order to Remove Hazardous Substances from
Clark Brothers Warehouse, Albany, Georgia

Dear Mr. Weinberg:

This letter will confirm your telephone discussion with Mr. Don Rigger, EPA, in which you requested an extension of time in which to advise the Agency of whether you will comply with Administrative Order No. 90-31-C issued March 30, 1990.

Based upon your commitment to obtain proposals during the week of April 9, 1990 from several response action contractors regarding the required removal action, I am granting an extension of the commitment required by Section V.A.1. from April 9, 1990, to April 20, 1990. This letter also confirms that you have agreed to provide, in writing, your intention with regard to compliance with the Order by April 20, 1990. All other requirements of the Order, including the performance dates set forth in Section V.A.2. and 3. remain unchanged.

Please be further advised that your expeditious attention to this problem is essential, due to the nature of the hazardous substance involved.

Sincerely yours,

Patrick M. Tobin

Patrick M. Tobin, Director
Waste Management Division
